

Stacking Chair

Designed by Lucian Ercolani

1956

The STACKING CHAIR unites functionality and aesthetic appeal in a precise, streamlined silhouette, deliberately designed for optimal comfort, ease of use and versatility.

Purpose-built for convenience, the outward-facing legs of the STACKING CHAIR allow the chairs to be stacked vertically when not in use. This, coupled with the chair's ergonomic design, make the STACKING CHAIR a versatile offering that complements urban workspaces, intimate dining environments and private residences alike.

Constructed of solid Ash timber, the STACKING CHAIR is offered in nine distinctive finishes.
