Pennon Small Table

Designed by Norm Architects

2019

The PENNON SMALL TABLE is an attractive complement to its larger counterpart; the PENNON LARGE TABLE. Versatile and timeless, the table's organic curves serve as a tangible expression of Norm Architects' trademark Nordic minimalism.

Designed in 2019 and built to last for generations, the oval form of the PENNON SMALL TABLE lends itself to a wide variety of contemporary living and dining spaces. The table's distinctive build was inspired by the structure of old biplane wings — with smooth, wide limbs that gently taper at their base and soft, moulded edges

Available in Ash and Walnut timber, the elemental warmth of natural wood is a soothing complement to the PENNON SMALL TABLE's clean-lined form. The Ash variation is offered in nine finishes.
